

Meaningful Use (MU) is a set of 15 Core (all must be met) and 10 Menu measures (5 must be met) that you must perform in order to receive the Medicare or Medicaid EHR Incentives and to avoid future penalties.

### Core Set Objectives and Measures - All Must Be Satisfied

ADVANTAGE/EHR	Objective	Measure
	<b>1.</b> Record Patient Demographics (sex, race, ethnicity, date of birth & preferred language)	More than 50% of patient's demographics data recorded as structured data
	<b>2.</b> Record Vital Signs (height, weight, & blood pressure)	More than 50% of patients 2 years of age or older have height, weight, and blood pressure recorded as structured data
	<b>3.</b> Maintain up-to-date Problem/Diagnosis List	More than 80% of patients have at least one entry recorded as structured data or an indication that they have no problems
	<b>4.</b> Maintain Active Medication List	More than 80% of patients have at least one entry recorded as structured data or an indication they are on no medications
	<b>5.</b> Maintain Active Medication Allergy List	More than 80% of patients have at least one entry recorded as structured data or an indication that they have no allergies
	<b>6.</b> Record Smoking Status	More than 50% of patients 13 years of age or older have smoking status recorded as structured data
	<b>7.</b> Provide Patients With Clinical Summary for Each Office Visit	Clinical summaries provided to patients for more than 50% of all office visits within 3 business days
 <b>patient WEB PORTAL</b>	<b>8.</b> Provide Requesting Patients With Electronic Copies of Health Information Including Diagnostic Test Results, Problem List, Medication Lists and Medication Allergies	More than 50% of requesting patients receive electronic copies within 3 business days
 <b>E-Rx</b> E-Prescribing Solution	<b>9.</b> Generate And Transmit Electronic Prescriptions	More than 40% of all permissible prescriptions are transmitted electronically
	<b>10.</b> Computerized Physician Order Entry (CPOE)	More than 30% of patients with at least one medication in their medication list have at least one medication ordered through CPOE
 <b>E-Rx</b> E-Prescribing Solution	<b>11.</b> Drug-Drug, Drug-Allergy Checking	Drug-drug and drug-allergy checking features are enabled for entire reporting period
	<b>12.</b> Implement Capability To Exchange Key Clinical Information	Perform at least one test of EHR's capacity to electronically exchange information
	<b>13.</b> Implement Clinical Decision Support	Implement one rule with high clinical priority for or relevant to specialty of the EP and track compliance
	<b>14.</b> Implement Systems To Protect Patient Data	Conduct or review a security risk analysis, implement security updates as necessary, and correctly identified security deficiencies
	<b>15.</b> Report Clinical Quality Measures to CMS or the States	For 2011: Attest to accuracy and completeness of, aggregate numerator and denominator. For 2012: Electronically submit measures

Compulink is fully prepared to help you achieve Meaningful Use by offering you certified EHR technology, comprehensive training, ARRA incentive guarantee, and a money back EHR implementation guarantee. Here's how Compulink Advantage/EHR and associated products can be used to help you achieve Meaningful Use:

Menu Set Objectives and Measures - 5 Must Be Satisfied		
ADVANTAGE/EHR	Objective	Measure
 <b>E-Rx</b> E-Prescribing Solution	<b>1.</b> Drug Formulary Checking	Drug formulary check system is implemented and has access to at least one internal or external drug formulary for the entire reporting period
	<b>2.</b> Incorporate test results into EHR	More than 40% of clinical laboratory test results whose results are in positive / negative or numerical format are incorporated into EHRs as structured data
	<b>3.</b> Generate Patient List	Generate at least one list of the EP's patients with a specific condition to use for quality improvement, reduction of disparities, and/or outreach
	<b>4.</b> Identify Patient-Specific Educational Resources	Use EHR technology to identify and provide patient-specific educational resources to more than 10% of patients seen
	<b>5.</b> Medication Reconciliation	Performed for more than 50% of encounters and transitions of care
	<b>6.</b> Provide summary of care record for patients referred or transitioned to another provider or setting	Summary of care record is provided for more than 50% of patient transitions or referrals
