"The consulting service of Jeff Grant was excellent. He really found the weakest links in our system and was able to point out ways to correct them. His advice was both solid and specific. We are now implementing many of his suggestions and are seeing a positive change in our practice."

"A brief 1-2 day visit to our practice by Mr. Grant allowed us to identify some problem areas in our scheduling and billing, resulting in an immediate improvement in patient flow as well as collections. After his brief counseling session, employees were able to make our software system perform in a much more satisfactory level. Thank you so much for your help - wish we had run into you sooner!"
